

**Phase 1 Report | Project in Embedded Systems 15hp 1TE721**  
**A FERMENTATION TEMPERATURE MONITORING SYSTEM**  
**using Atmel AVR and an ARM single-board computer**

Group 1: August Forsman  
aufo8456@student.uu.se

## **Summary**

The work is finished in time according to the project plan.

## **Design**

**Communication protocols**

**Hardware and development tools**

**Conclusion**

**Starting with Phase 2**

Phase 2 can be implemented.
